BRAKE INSPECTIONS / 01

LOG VEHICLE A OBSERVATIONS

Record what was noticed without diagnosing it. Follow urgent handling guidance from a qualified provider or official source separately.

A helpful preparation resource from PickYourPro.ai. Fill in digitally or print. Keep your completed copy private.

Vehicle A / year / make / model / no VIN or plate

Visit A purpose / inspection question in your own words

What was noticed / sound / feel / message / no diagnosis

When it occurs / frequency / conditions as observed

Recent service-record reference for private review / no details

Open safety or handling question for the provider

Preparation only. Not driving, emergency response, diagnosis, measurement interpretation, vehicle-safety, inspection-standard, recall, warranty, repair, mechanical or legal advice. Keep VIN, plate, identities, location and private records out.

BRAKE INSPECTIONS / 02

DEFINE INSPECTION AND WRITTEN FINDINGS

Ask the provider to state coverage, exclusions and authorization boundaries before interpreting or acting on findings.

Wheels, components, systems and tests included / excluded

Access, wheel-removal or observation assumptions

Finding format / condition notes / images if offered

Measurements, units and stated reference basis

Additional diagnosis, disassembly or repair authorization rule

Report, recommendations, recall-route note and handoff

Preparation only. Not driving, emergency response, diagnosis, measurement interpretation, vehicle-safety, inspection-standard, recall, warranty, repair, mechanical or legal advice. Keep VIN, plate, identities, location and private records out.

BRAKE INSPECTIONS / 03

CHECK INSPECTION READINESS

Tick what is organized. These checks do not diagnose a condition, interpret a measurement or determine whether the vehicle is safe to drive.

- [ ] Every provider receives the same non-sensitive observation brief
- [ ] VIN, plate, identity, location and private records stay outside
- [ ] Observations are separated from diagnosis and conclusions
- [ ] Warning messages are copied without interpretation
- [ ] Inspection coverage and exclusions are requested
- [ ] Measurements, units and reference basis are requested
- [ ] Additional work requires separate authorization
- [ ] Written findings and handoff records are requested

Open observation, warning-message or record question

Unconfirmed inspection, measurement or authorization boundary

Missing report, recommendation or unresolved-item detail

Preparation only. Not driving, emergency response, diagnosis, measurement interpretation, vehicle-safety, inspection-standard, recall, warranty, repair, mechanical or legal advice. Keep VIN, plate, identities, location and private records out.

BRAKE INSPECTIONS / 04

QUESTIONS FOR THE BRAKE PROVIDER

Record the answer and where it appears in the proposed inspection or written findings. Discuss private vehicle details separately.

Intake: what vehicle information and records are needed?

Coverage: which wheels, components, systems and tests are included?

Findings: how are condition and measurements documented?

Authorization: what additional work needs separate approval?

Recommendations: how are findings separated from proposed work?

Handoff: what report, records and open questions are provided?

Preparation only. Not driving, emergency response, diagnosis, measurement interpretation, vehicle-safety, inspection-standard, recall, warranty, repair, mechanical or legal advice. Keep VIN, plate, identities, location and private records out.

BRAKE INSPECTIONS / 05

COMPARE THE SAME VISIT A BRIEF

Use Provider A and B. Clarify unlike coverage, measurement, authorization or handoff assumptions before comparing proposals.

Provider A / B / proposal dates / shared Vehicle A brief

Inspection coverage, exclusions and access assumptions - A / B

Findings, measurements, units and reference basis - A / B

Authorization, recommendations, report and handoff - A / B

READY TO HEAR FROM PROS?

Create an account on PickYourPro.ai only if you choose, then start a Brakes request. Share a non-sensitive Vehicle A observation, inspection-scope and written-finding brief so participating pros can compete with proposals. Compare proposed inspection coverage, documentation, measurements, reference basis, authorization boundaries, report handoff, exclusions and fit. A provider-led vehicle inspection and private record review may be needed before any diagnosis or repair proposal.

One request. Every pro's best offer.

Start a request

Participation varies. A provider-led vehicle inspection and private record review may be needed before any diagnosis or repair proposal.
