CAR AUDIO / 01

DOCUMENT VEHICLE CONTEXT AND DESIRED FUNCTIONS

Give installers useful context without entering a VIN, plate, address, key, access code or security detail.

A helpful preparation resource from PickYourPro.ai. Fill in digitally or print. Keep your completed copy private.

Broad vehicle year, make, model and body style - no VIN, plate or address

Desired listening experience and most important day-to-day functions

Connectivity, call, navigation or media functions to discuss with the installer

Existing factory or aftermarket equipment that is known; mark uncertain items

Controls, screens, cameras or other vehicle functions for provider evaluation

Appearance, storage-space, reversibility or future-upgrade preferences

Preparation only. Not an inspection, compatibility or product decision, wiring, removal or installation instruction, power calculation, battery, airbag, trim or calibration guidance, driving-safety assessment, warranty interpretation, or legal guide.

CAR AUDIO / 02

PREPARE THE INSTALLER ASSESSMENT AND WRITTEN SCOPE

Leave compatibility, products, integration and work methods to the provider; use this page to make proposals comparable.

Vehicle and existing-equipment items the installer must inspect or verify

Named products and included functions to show in the written proposal

Integration questions for existing controls, screens, cameras and other functions

Labor, removal, restoration, testing and cleanup categories to itemize

Unknown conditions, exclusions and written change-approval process

Scheduling, vehicle handoff, custody and communication questions - no key or address details

Preparation only. Not an inspection, compatibility or product decision, wiring, removal or installation instruction, power calculation, battery, airbag, trim or calibration guidance, driving-safety assessment, warranty interpretation, or legal guide.

CAR AUDIO / 03

PLAN CONTROLS, TESTING, HANDOFF AND SUPPORT

Tick what is ready. The installer should explain and demonstrate the completed work with the vehicle parked.

- [ ] Broad vehicle context is recorded without VIN, plate or address
- [ ] Desired functions are described without installation directions
- [ ] Existing equipment and unknowns are ready for provider inspection
- [ ] Compatibility and product selection stay with the installer
- [ ] Named products, labor, restoration and testing will be itemized
- [ ] Existing controls, screens, cameras and functions will be addressed
- [ ] Controls will be demonstrated while the vehicle is parked
- [ ] Handoff records, warranties, support and open questions are ready to compare

Control layout and provider explanation for minimizing driver interaction

Function-by-function testing and parked-vehicle demonstration plan

Product documents, settings record, warranty, workmanship and support handoff

Preparation only. Not an inspection, compatibility or product decision, wiring, removal or installation instruction, power calculation, battery, airbag, trim or calibration guidance, driving-safety assessment, warranty interpretation, or legal guide.

CAR AUDIO / 04

QUESTIONS FOR A CAR AUDIO INSTALLER

Record how each installer will assess, integrate, itemize, test and support the same desired functions.

Assessment: what vehicle and existing-equipment details must you inspect before confirming scope?

Products: which named products and functions are included, optional or still uncertain?

Integration: how will you explain effects on existing controls, screens, cameras and functions?

Scope: how are products, labor, restoration, testing, exclusions and changes itemized?

Controls: how will you minimize driver interaction and demonstrate use while parked?

Handoff: what records, product documents, warranties and support contacts are included?

Preparation only. Not an inspection, compatibility or product decision, wiring, removal or installation instruction, power calculation, battery, airbag, trim or calibration guidance, driving-safety assessment, warranty interpretation, or legal guide.

CAR AUDIO / 05

COMPARE THE SAME CAR AUDIO BRIEF

Use A and B in every box. Compare after both installers review the same vehicle context, desired functions and existing-equipment notes.

Installer A / Installer B / review dates and the same non-sensitive vehicle brief

Assessment, compatibility explanation, named products and included functions - A / B

Integration, controls, itemized labor, restoration, testing and exclusions - A / B

Schedule, handoff, documents, warranties, support, open questions and fit - A / B

READY TO HEAR FROM PROS?

Create an account on PickYourPro.ai only if you choose, then start a Car Audio & Accessories request. Share broad vehicle context, desired functions, existing equipment and appearance preferences so participating pros can compete with proposals. Compare provider-led assessment, named products, integration, controls, itemized labor, testing, handoff, warranty and fit; an in-person vehicle review may be needed before a final proposal.

One request. Every pro's best offer.

Start a request

Participation varies. A provider-led vehicle and existing-equipment assessment may be needed before a final installed-system proposal.
