QUESTIONS FOR THE CARPET CLEANER

Use the same area list in each conversation. Ask for scope explanations, not a guaranteed result.

Assessment: what must you inspect or clarify for each labeled area?

History: which care-label or previous-treatment references do you need?

Scope: how are included work, optional work and exclusions recorded?

Roles: who handles furniture, access or off-site items, and what is excluded?

Handoff: what written instructions and concern-reporting process will I receive?

Terms: how are scope changes, follow-up, fees and cancellation documented?

Preparation only. Not a cleaning method, fabric diagnosis, safety plan or warranty interpretation. No cleaning result is guaranteed. Keep private household information out.
