QUESTIONS FOR THE GARAGE-DOOR PROVIDER

Ask for a written explanation of assessment, options, approval and handoff; not DIY instructions.

Assessment: what does it cover, and what might remain unknown?

Findings: what work is proposed, and which components remain?

Compatibility: who confirms retained and replacement items and work by others?

Approval: what is included, excluded or subject to a later change decision?

Handoff: what checks, manuals and controls demonstration will you provide?

Open items: who handles unresolved work, written warranty details and questions?

Preparation only. Not a diagnosis, repair or operating instruction, compatibility decision, safety clearance, code, permit or legal guide. Do not operate, inspect, measure, test or adjust anything for this pack.
