GLASS + CALIBRATION HANDOFF / 01

MAP VEHICLE A AND GLASS POSITION A

Use neutral labels. Keep VIN, plate, address, claim, account and personal details outside the workbook.

A helpful preparation resource from PickYourPro.ai. Fill in digitally or print. Keep your completed copy private.

Vehicle A / year, make and model only

Glass Position A / windshield location label

Observed damage area / no diagnosis

Visible feature label A / camera, sensor, mirror or trim label only

Known prior glass or related work / high-level note only

Private VIN, photos or records available / labels only

Preparation only. Not vehicle, glass, glazing, sensor, camera, ADAS, diagnostic, installation, calibration, scan, alignment, electrical, safety, recall, warranty, insurance, contract or legal advice. Keep VIN, plate, address, claim and personal details out.

GLASS + CALIBRATION HANDOFF / 02

DEFINE THE DECISION AND HANDOFF

Ask the provider to document sources, roles and records. Do not decide glass, calibration or repair procedures yourself.

Glass-identification source and proposed specification

Feature-confirmation step / responsible provider or facility

Calibration or related-work decision / who decides and records it

Outside facility, transport, scheduling and authorization handoff

Installation, trim, cleanup and return-condition scope

Completed-work and provider-stated calibration records returned

Preparation only. Not vehicle, glass, glazing, sensor, camera, ADAS, diagnostic, installation, calibration, scan, alignment, electrical, safety, recall, warranty, insurance, contract or legal advice. Keep VIN, plate, address, claim and personal details out.

GLASS + CALIBRATION HANDOFF / 03

CHECK PROPOSAL READINESS

Tick what is organized. These checks do not approve glass, installation, calibration, safety or vehicle use.

- [ ] Every provider receives the same Vehicle A brief
- [ ] VIN, plate, address and claim details remain private
- [ ] Visible features use neutral labels without diagnosis
- [ ] Glass-identification source is written
- [ ] Calibration-decision ownership is written
- [ ] Outside-party coordination is assigned
- [ ] Installation and vehicle-return scope is stated
- [ ] Completed-work records are listed

Open glass-identification or visible-feature question

Unassigned calibration-decision or outside-party handoff

Missing installation, return-condition or completion-record detail

Preparation only. Not vehicle, glass, glazing, sensor, camera, ADAS, diagnostic, installation, calibration, scan, alignment, electrical, safety, recall, warranty, insurance, contract or legal advice. Keep VIN, plate, address, claim and personal details out.

GLASS + CALIBRATION HANDOFF / 04

QUESTIONS FOR THE VEHICLE-GLASS PROVIDER

Record the answer and where it appears in the proposal, work order or provider handoff.

Source: how will Glass Position A be identified and confirmed?

Features: what visible connected items must be confirmed?

Decision: who determines and records calibration or related needs?

Coordination: who owns outside work, transport and authorization?

Return: what installation, cleanup and use-after-service items are written?

Records: what glass and calibration handoff documents are returned?

Preparation only. Not vehicle, glass, glazing, sensor, camera, ADAS, diagnostic, installation, calibration, scan, alignment, electrical, safety, recall, warranty, insurance, contract or legal advice. Keep VIN, plate, address, claim and personal details out.

GLASS + CALIBRATION HANDOFF / 05

COMPARE THE SAME VEHICLE A BRIEF

Use Provider A and B. Clarify unlike glass, feature, calibration or handoff assumptions before comparing proposals.

Provider A / B / proposal dates / shared Vehicle A brief

Glass-identification source and visible-feature assumptions - A / B

Calibration decision, performer and outside-party handoff - A / B

Installation, return conditions, records, exclusions and terms - A / B

READY TO HEAR FROM PROS?

Create an account on PickYourPro.ai only if you choose, then start a Windshield & Glass request. Share the same non-sensitive Vehicle A brief so participating pros can compete with proposals. Compare glass-identification sources, feature assumptions, calibration-decision ownership, outside-party coordination, written handoffs, exclusions and fit. A provider-led vehicle inspection and private vehicle-information review may be needed before a final proposal.

One request. Every pro's best offer.

Start a request

Participation varies. A provider-led vehicle inspection and private vehicle-information review may be needed before a final proposal.
