GREASE TRAP SERVICE / 01

BUILD THE EQUIPMENT AND ACCESS BRIEF

Use neutral labels. Keep addresses, credentials, identities, measurements, quantities and private facility records out.

A helpful preparation resource from PickYourPro.ai. Fill in digitally or print. Keep your completed copy private.

Facility A / business-type label / no address

Equipment A / neutral device or area label / no serial number

Access Window A / operating or access constraint question

Existing Record A / category and custodian only / no contents

Requested Result A / service or professional-assessment question

Facility Handoff A / responsible role / no personal details

Preparation only. Not servicing, plumbing, wastewater, waste-handling, maintenance, inspection, code, permit, compliance, contract or legal advice. No operating or work authorization. Keep private facility details out.

GREASE TRAP SERVICE / 02

MAP SCOPE, WASTE HANDOFF AND RECORDS

Connect every provider statement to the same equipment label and proposal version. Do not authorize service or waste handling here.

Provider A / proposal or service reference / date

Service Scope A / provider-stated tasks or deliverables

Exclusion A / provider-stated limitation or dependency

Access or operating coordination / facility role / provider role

Waste Handoff A / provider-stated evidence and delivery role

Completion Record A / exception or follow-up route / version

Preparation only. Not servicing, plumbing, wastewater, waste-handling, maintenance, inspection, code, permit, compliance, contract or legal advice. No operating or work authorization. Keep private facility details out.

GREASE TRAP SERVICE / 03

CHECK THE SERVICE PACKET

Tick what is organized. These checks do not approve a method, interval, disposal route or compliance conclusion.

- [ ] Facility and equipment labels are neutral and consistent
- [ ] No address, credentials, identities, measurements or quantities are recorded
- [ ] Existing records are listed only by category
- [ ] Access and operating constraints are coordination questions
- [ ] Proposed scope and exclusions are requested in writing
- [ ] Waste-handoff evidence is requested without interpretation
- [ ] Completion records are tied to the proposal version
- [ ] No method, interval, compliance or work-approval conclusion is recorded

Equipment, access or scope question still open / provider to ask

Waste-handoff or completion-record question still open / responsible role

Exception or follow-up question still open / proposal reference

Preparation only. Not servicing, plumbing, wastewater, waste-handling, maintenance, inspection, code, permit, compliance, contract or legal advice. No operating or work authorization. Keep private facility details out.

GREASE TRAP SERVICE / 04

QUESTIONS FOR THE GREASE-TRAP PROVIDER

Ask every provider the same equipment, access, scope, handoff and record questions.

Equipment: how will each device be identified before final scope?

Access: what operating or facility coordination is required?

Records: which existing categories are useful and how are they shared privately?

Scope: what is included, excluded and subject to a written change?

Handoff: what waste or service evidence will be delivered and by whom?

Completion: how are exceptions and unresolved follow-up documented?

Preparation only. Not servicing, plumbing, wastewater, waste-handling, maintenance, inspection, code, permit, compliance, contract or legal advice. No operating or work authorization. Keep private facility details out.

GREASE TRAP SERVICE / 05

COMPARE THE SAME FACILITY BRIEF

Use Providers A and B with the same neutral equipment and access brief. Clarify differences before comparing proposals.

Providers A / B / proposal or service references / dates

Equipment, access and proposed scope - A / B

Exclusions, waste handoff and completion records - A / B

Responsible roles, exceptions and unresolved questions - A / B

READY TO HEAR FROM PROS?

Create an account on PickYourPro.ai only if you choose, then start a Grease Trap Service request. Share a non-sensitive equipment, access, service-record and waste-handoff brief so participating pros can compete with proposals. Compare written scope, exclusions, record delivery, timing and fit. A provider-led site, equipment and private-record review may be needed before a final proposal.

One request. Every pro's best offer.

Start a request

Participation varies. A provider-led site, equipment and private-record review may be needed before a final service proposal.
