QUESTIONS FOR THE IDAHO CONTRACTOR

Ask every provider the same proposal-role questions. Send official-record and consumer-route questions to the responsible office.

Scope: what work and coordination are included or excluded?

Roles: who performs, coordinates or subcontracts each part?

Records: which public name should be used on an official route?

Sources: who should answer an uncertain Idaho source question?

Privacy: where will private project and record details stay?

Update: what written proposal or responsibility summary will change?

Preparation only. Not contractor-registration, licensure, complaint, permit, code, construction, contract or legal advice. Keep identities, results, complaints and private project records out.
