QUESTIONS FOR THE MICHIGAN SHOP

Use the current official FAQ beside the shop's documents. Ask for explanation, not a shortcut.

Diagnosis: where is reassembly addressed, and what needs explanation before a later repair decision?

Later work: how will you distinguish a repair proposal from the diagnostic document?

Roles: which records explain customer-contact and third-party payer arrangements?

Other shop: who explains the sublet handoff, and which record identifies that work?

Invoice: which reference answers my original question, and who clarifies differences?

Unresolved concern: who responds at the shop, and which current agency source may help?

Preparation only. Not an official form, authorization, complaint, legal interpretation, license check, diagnosis or driving-safety guide. Keep private records and claim facts out.
