QUESTIONS FOR THE CONTRACTOR

Ask each provider the same zone, access and responsibility questions.

Zones: how will work areas, household areas and changing boundaries be documented?

Items: who moves, protects, stores and returns each personal-property group?

Access: what start, stop, delivery and daily reset responsibilities are included?

Qualified sources: which lead, hazard, utility or occupancy questions need referral?

Changes: how are discoveries, options, schedule effects and approvals recorded?

Handoff: what written zone-status and remaining-work record will be provided?

Preparation only. Not construction, design, engineering, code, permit, lead, hazard, containment, ventilation, utility, occupancy, access, security, contract or legal advice.
