OKLAHOMA INFLATABLE RECORD QUESTIONS / 01

SEPARATE OPERATOR AND UNIT REFERENCES

Use the current ODOL page and dated directory. An operator entry is not a device inspection record.

A helpful preparation resource from PickYourPro.ai. Fill in digitally or print. Keep your completed copy private.

Directory printed date / date checked / private page or entry reference

Operator label O1 / name-match question / operator explanation reference

Proposed Unit A / ordinary description / operator's identifying-record reference

Unit A / registration or inspection document requested / not supplied or received?

Unit A / current sticker question / operator response reference / still unclear?

Uncertain identity or record / question for operator or ODOL / contact role

Preparation only. Not an ODOL form, inspection, safety approval, operating plan or legal advice. Directory entries do not prove device status. Keep private event details out.

OKLAHOMA INFLATABLE RECORD QUESTIONS / 02

KEEP REPLACEMENTS AND REPLIES TRACEABLE

A replacement gets a new label. Do not carry an earlier unit's record answers forward.

Original Unit A / unresolved record question / reply reference and date

Replacement Unit B / reason given / change-message reference and date

Unit B / operator identity / separate directory or identity question

Unit B / device-specific record and sticker questions / response reference

Record status: not supplied, received but unclear, or explanation recorded / A and B

Unresolved question / operator or official contact route / next reply reference

Preparation only. Not an ODOL form, inspection, safety approval, operating plan or legal advice. Directory entries do not prove device status. Keep private event details out.

OKLAHOMA INFLATABLE RECORD QUESTIONS / 03

PREPARE THE LOCAL RECORD CONVERSATION

Tick organized items, not approvals. Keep official observations separate from operator explanations.

- [ ] Official ODOL starting page used
- [ ] Directory printed date and checked date recorded
- [ ] Operator identity question kept separate from unit identity
- [ ] Each proposed unit has its own label
- [ ] Device records are not replaced by aggregate counts
- [ ] Missing and unclear references remain unresolved
- [ ] Changed operator or unit opens new questions
- [ ] No check is an inspection, safety or legal approval

Official-page and directory version references / later source update to check

Missing or conflicting record / question / person or office to clarify

Separate site, supervision, weather and cancellation questions for the operator

Preparation only. Not an ODOL form, inspection, safety approval, operating plan or legal advice. Directory entries do not prove device status. Keep private event details out.

OKLAHOMA INFLATABLE RECORD QUESTIONS / 04

QUESTIONS FOR THE INFLATABLE OPERATOR

Ask about the actual proposed device. Keep original records private and record references here.

Identity: which operator name corresponds to the dated directory entry?

Device: how do supplied registration or inspection records identify this unit?

Uncertainty: which missing or unclear questions should I direct to ODOL?

Sticker: how will current sticker information be explained for this unit?

Changes: how are replacement operators or devices identified and documented?

Boundaries: who clarifies records and separate site, supervision and weather terms?

Preparation only. Not an ODOL form, inspection, safety approval, operating plan or legal advice. Directory entries do not prove device status. Keep private event details out.

OKLAHOMA INFLATABLE RECORD QUESTIONS / 05

COMPARE THE SAME UNIT AND OPEN QUESTIONS

Use Operator A and B. A directory listing is not a recommendation or a safe-event finding.

Operator A / B / proposal dates / proposed unit labels and record-list version

Operator identity and device-specific record clarification - A / B

Replacement notice, new references and unresolved-question ownership - A / B

Separate assessment, supervision, weather, cancellation, fees and terms - A / B

READY TO HEAR FROM PROS?

If you choose, create an account on PickYourPro.ai and start a Bounce Houses & Inflatables request. Describe the rental and record clarification you seek so participating pros can compete with proposals. Compare the actual proposed unit, clarification responsibilities, assessment, exclusions and written terms. Keep private event and participant information out.

One request. Every pro's best offer.

Start a request

Participation varies. An operator-led site, device and record discussion may be needed before confirming service.

Oklahoma Department of Labor: Inflatable Amusement Devices (official reference)

ODOL: Amusement Show Directory, September 24, 2026 (official reference)

Preparation only. Not an ODOL form, inspection, safety approval, operating plan or legal advice. Directory entries do not prove device status. Keep private event details out.
