LOCATE THE OREGON SOURCE AND QUESTION

This supplement tracks local document questions, not household inventory. Use neutral stop labels.

A helpful preparation resource from PickYourPro.ai. Fill in digitally or print. Keep your completed copy private.

Route context: origin and destination city/state; any state-line or applicability question

ODOT household-goods page / bulletin version shown / date I checked the current source

Bulletin topic I want explained / provider document name, version and page reference

Question in my own words / provider contact or agency information route to ask

Another bulletin topic / related private document reference / person who can explain it

Information still unknown; which source or professional needs to confirm applicability?

Preparation only. Not an official form, mover endorsement, legal interpretation, price or coverage calculation, payment or claims instruction, deadline or packing guide. Keep private move records out.

SEPARATE DOCUMENT VERSIONS AND LEGS

Keep originals private. A reference here records a question; it does not approve a document.

Original estimate reference / date or version / unresolved explanation needed

Changed-service document reference / link to original / person to explain the difference

Trip into storage: neutral start and stop / document reference / coordinating contact

Later trip out of storage: neutral start and stop / document reference / coordinating contact

Gap between the two legs: who confirms responsibility, timing and which documents cover it?

Protection-choice or delivery-document reference / question for provider / reply still needed

Preparation only. Not an official form, mover endorsement, legal interpretation, price or coverage calculation, payment or claims instruction, deadline or packing guide. Keep private move records out.

QUESTIONS FOR THE MOVING PROVIDER

Use the official source beside the provider's original documents. Ask for explanation, not a shortcut.

Applicability: which guidance covers this route, and who can clarify state-line or storage questions?

Document match: which document and page explain this ODOT bulletin topic?

Changes: how will you identify later service documents and their link to the original estimate?

Storage: which trip legs are covered and who coordinates the trip in and the later trip out?

Choices and delivery: where are the original explanations and records I need to review?

Unresolved question: who responds, where is the reply kept, and which agency source may help?

Preparation only. Not an official form, mover endorsement, legal interpretation, price or coverage calculation, payment or claims instruction, deadline or packing guide. Keep private move records out.
