QUESTIONS FOR THE TRAINER

Use the same goal labels in each interview. Ask for explanations, not a promise that one package fixes every concern.

Experience: what education and relevant work can you explain for these goals?

Assessment: what information is needed before an approach can be proposed?

Methods: how do you explain humane methods, tools and owner concerns?

Participation: how will you teach the owner and check understanding?

Referral: which concerns need a veterinarian or another professional?

Follow-up: what notes, support, fees, changes and cancellation terms apply?

Preparation only. Not behavior diagnosis, exercises, handling, veterinary treatment, aggression management, safety or emergency advice. Do not provoke behavior for this pack. No results are guaranteed.
