Pressure-washing scope / 01

DRAW THE SCOPE IN WORDS

Use already-known context. The provider must confirm boundaries and suitability; do not inspect for this pack.

A helpful preparation resource from PickYourPro.ai. Fill in digitally or print. Keep your completed copy private.

Zone A: neutral label / proposed exterior surface group

A: adjacent items or openings to discuss / nearby items not requested for cleaning

A: where the work stops / exclusion question / provider scope reference

Zone B: neutral label / proposed exterior surface group

B: adjacent items or openings to discuss / nearby items not requested for cleaning

B: where the work stops / exclusion question / provider scope reference

Preparation only. Not operating, chemical, water-connection, runoff, cleanup, safety or legal instructions. No cleanliness or safe-use certification. Keep private access details out.

Pressure-washing scope / 02

CONNECT ARRANGEMENTS TO ROLES

Record questions and written references, not connection, runoff or protection instructions.

Zone A: water-access question / authorized confirming role / reply reference

A: provider runoff and protection arrangement reference / responsibility to confirm

A: client arrangement expressly agreed / provider work / unresolved coordination

Zone B: water-access question / authorized confirming role / reply reference

B: provider runoff and protection arrangement reference / responsibility to confirm

B: client arrangement expressly agreed / provider work / unresolved coordination

Preparation only. Not operating, chemical, water-connection, runoff, cleanup, safety or legal instructions. No cleanliness or safe-use certification. Keep private access details out.

Pressure-washing scope / 03

KEEP THE SAME ZONE AT HANDOFF

Check what is documented. These boxes do not certify cleanliness, safe use or discharge permission.

- [ ] Work zones and adjacent items are distinguished
- [ ] Boundaries and exclusions have provider scope references
- [ ] Water-access questions have confirming roles
- [ ] Runoff and protection responsibilities are documented or open
- [ ] Authority questions remain for the appropriate provider or authority
- [ ] Client arrangements are expressly agreed rather than assumed
- [ ] Deferred areas and concerns use the same zone labels
- [ ] No operating instructions or private access details are entered

Zone / provider completion record / deferred area or excluded item

Zone / unresolved concern / provider reply reference / follow-up role

Changed boundary or arrangement / revised scope reference / confirmation still needed

Preparation only. Not operating, chemical, water-connection, runoff, cleanup, safety or legal instructions. No cleanliness or safe-use certification. Keep private access details out.

Pressure-washing scope / 04

QUESTIONS FOR THE PROVIDER

Ask for a responsibility explanation tied to the zone list, not a guaranteed appearance.

Boundaries: how does the scope distinguish zones from adjacent excluded items?

Review: what must you assess before confirming the proposed work?

Water: who confirms access arrangements and where is that recorded?

Runoff and protection: who defines the plan and resolves authority questions?

Roles: which client arrangements are agreed, and what stays with your team?

Handoff: how do deferred work and concerns connect to the original zone list?

Preparation only. Not operating, chemical, water-connection, runoff, cleanup, safety or legal instructions. No cleanliness or safe-use certification. Keep private access details out.

Pressure-washing scope / 05

COMPARE ZONES AND RESPONSIBILITIES

Use Provider A and B in every box. Clarify different boundaries before comparing totals.

Provider A / B / proposal dates / common zone-list version

Included boundaries, adjacent exclusions and provider review needs - A / B

Water, runoff, protection and expressly agreed client responsibilities - A / B

Deferred work, follow-up, changes, fee basis, timing and written terms - A / B

READY TO HEAR FROM PROS?

Create an account on PickYourPro.ai if you choose, then start a Pressure Washing request. Share a non-sensitive summary so participating pros can compete with proposals. Compare work boundaries, responsibilities, exclusions, timing and terms. A provider-led site and scope review may be needed.

Start a request

One request. Every pro's best offer.

Participation varies. A provider-led site and scope review may be needed before a final proposal.
