SOLAR EQUIPMENT HANDOFF / 01

ANCHOR THE EQUIPMENT REFERENCES

Use provider-supplied references, not your own equipment assessment. Copy this page for another equipment group.

A helpful preparation resource from PickYourPro.ai. Fill in digitally or print. Keep your completed copy private.

Neutral equipment-group label / solar provider's inventory reference

Prior installer and manufacturer record references / missing records to request

Existing warranty-paperwork reference / contact for questions, not interpretation

Removal record expected from provider / contact role / reference when received

Storage record expected from provider / contact role / reference when received

Return record expected from provider / contact role / unresolved group mismatch

Preparation only. Not technical work, equipment handling, safety, operating permission, warranty or legal advice. Providers determine all work. Keep serial numbers, site details and credentials private.

SOLAR EQUIPMENT HANDOFF / 02

FOLLOW ONE HANDOFF

Copy for each provider-described transfer. Receipt, condition review and work completion are separate statements.

Equipment-group label / transfer label / provider-described stage

Sending role / outgoing record reference / acknowledgement reference

Receiving role / incoming record reference / acknowledgement reference

Inventory references on both records / mismatch reported by provider

Provider-reported condition or missing-item question / separate record reference

Contact responsible for clarification / reply reference / what remains open

Preparation only. Not technical work, equipment handling, safety, operating permission, warranty or legal advice. Providers determine all work. Keep serial numbers, site details and credentials private.

SOLAR EQUIPMENT HANDOFF / 03

CHECK THE COORDINATION RECORDS

Tick records organized, not equipment condition or permission to work. Ask providers to resolve unclear stages.

- [ ] Equipment groups use provider-supplied inventory references
- [ ] Prior installer and warranty-document questions have a contact
- [ ] Each transfer has its own reference trail
- [ ] Sending and receiving acknowledgements are separate
- [ ] Reported discrepancies remain connected to the equipment group
- [ ] The roofing contact and solar coordination question are recorded
- [ ] Roof completion is separate from solar return and reinstallation
- [ ] No note is treated as permission to operate the system

Roofing contact / solar provider's coordination question / reply reference

Separate roof-completion, solar-return and reinstallation record references

Separate operating-status confirmation reference / provider / unanswered question

Preparation only. Not technical work, equipment handling, safety, operating permission, warranty or legal advice. Providers determine all work. Keep serial numbers, site details and credentials private.

SOLAR EQUIPMENT HANDOFF / 04

QUESTIONS FOR THE SOLAR PROVIDER

Ask how the provider will document and coordinate the work. This is not a sequence of technical instructions.

Equipment identity: how will group and inventory references stay connected?

Handoffs: who creates records and acknowledges sending and receiving?

Discrepancies: how are missing-item or condition questions linked and followed?

Roofing interface: who coordinates and which information do you need?

Stage records: what separately confirms return, reinstallation and operating status?

Open questions: who responds about handoffs and prior warranty paperwork?

Preparation only. Not technical work, equipment handling, safety, operating permission, warranty or legal advice. Providers determine all work. Keep serial numbers, site details and credentials private.

SOLAR EQUIPMENT HANDOFF / 05

COMPARE THE SAME HANDOFF SCENARIO

Ask each provider how records would follow one equipment group from removal through storage and return.

Providers A / B / proposal references / same equipment-record scenario

Inventory continuity and two-sided handoff acknowledgements - A / B

Discrepancy follow-up and roofing-contact coordination - A / B

Separate stage confirmations, exclusions, support and written terms - A / B

READY TO HEAR FROM PROS?

If you choose, create an account on PickYourPro.ai and start a Solar request. Describe your equipment-record and roofing-coordination needs so participating pros can compete with proposals. Compare handoff documentation, responsible contacts, exclusions, support and written terms. Keep original equipment records and private site details in appropriate private channels.

One request. Every pro's best offer.

Start a request

Participation varies. A provider-led site, equipment-record and roofing-coordination review may be needed before a final proposal.
