CHECK THE ROUTE-ROLE PACKET

Tick what is organized. These checks do not determine credentials, requirements or work methods.

- [ ] Neutral labels contain no name, number, address or wiring detail
- [ ] Every official route has a date consulted
- [ ] No verification response or complaint fact is recorded
- [ ] Program, licensing, verification and complaint routes stay distinct
- [ ] Provider statements are separate from Commission notes
- [ ] Assessment, work, coordination and follow-up roles are separated
- [ ] Unresolved official questions route to the Commission
- [ ] No safety, credential or compliance conclusion is recorded

Official-route or verification question still open / Commission

Provider scope or responsibility clarification still open

Private project or record handoff still open / owner

Preparation only. Not electrical, safety, permit, inspection, licensing, credential, complaint, contract or legal advice. Keep identities, verification results, addresses, wiring details and private records out.

QUESTIONS FOR THE ELECTRICAL PROVIDER

Ask each provider the same route, private-record, scope and handoff questions.

Route: which current South Dakota Commission page should I consult?

Verification: what question belongs with the Commission rather than the proposal?

Scope: what assessment, work, coordination or follow-up is included?

Records: what private project detail is needed and how is it shared?

Handoffs: who documents observations, options, authorization and changes?

Proposal: where are exclusions, timing, complete fees and updates written?

Preparation only. Not electrical, safety, permit, inspection, licensing, credential, complaint, contract or legal advice. Keep identities, verification results, addresses, wiring details and private records out.

COMPARE ROUTE AND ROLE CLARITY

Use Providers A and B with the same neutral brief. Official navigation does not decide provider fit.

Providers A / B / proposal versions / discussion dates

Official routes, source dates and Commission questions - A / B

Assessment, work, coordination and follow-up roles - A / B

Private handoffs, exclusions, complete fees and open questions - A / B

READY TO HEAR FROM PROS?

Create an account on PickYourPro.ai only if you choose, then start an Electrical request. Share only a non-sensitive Project A, official-route and provider-role brief so participating pros can compete with proposals. Keep identities and project details private. Compare written scope, handoffs, timing, complete fees and fit. A provider-led site and private-record review may be needed before a final proposal.

One request. Every pro's best offer.
