CHECK THE COMPARISON PACKET

Tick what is organized. These checks do not approve products, conditions, assemblies or installation work.

- [ ] Every work area has a neutral label
- [ ] Every sample reference points to a provider document
- [ ] Layout preferences are written as questions, not instructions
- [ ] Retained adjacent finishes are identified without private details
- [ ] Edges and transitions have separate question labels
- [ ] Protection, removal, delivery and cleanup owners are visible
- [ ] Changes carry into affected areas, edges and proposal versions
- [ ] No measurement, diagnosis, assembly or product decision is recorded

Area, sample or layout question still open / professional to ask

Edge, transition or retained-finish question still open

Written substitution or proposal-version update requested

Preparation only. Not design, measuring, engineering, waterproofing, construction, installation, product, maintenance, safety, contract, licensing or legal advice. No condition, assembly, suitability or work-approval conclusion.

QUESTIONS FOR THE TILE OR STONE PRO

Ask each provider the same area, sample, edge and responsibility questions. Let qualified professionals make technical decisions.

Areas: which surfaces and boundaries are included or excluded?

Samples: which product, finish and proposal references apply to each area?

Layout: how will direction, focal points and visible changes be confirmed?

Edges: how are openings, corners, ends and transitions described?

Handoffs: who owns assessment, protection, removal, delivery and cleanup?

Changes: how will substitutions update the written schedule and proposal?

Preparation only. Not design, measuring, engineering, waterproofing, construction, installation, product, maintenance, safety, contract, licensing or legal advice. No condition, assembly, suitability or work-approval conclusion.
