ASK ABOUT THE WINDOW AND ALTERNATIVES

The photographer assesses capture conditions. These questions do not direct weather, lighting or site decisions.

Which of our priority views do you propose for an actual twilight visit?

Which readiness confirmation is missing for A or B, and who should reply?

Who will communicate your proceed, reduced-scope or postpone decision?

If a priority view is unavailable, which deliverables would change?

Would any edited twilight-look option be a separate scope and agreement?

What extra-visit or rescheduling terms should we clarify before choosing?

Preparation only. Not capture settings, weather, safety, lighting, access or property-system instructions. No listing result guaranteed. Keep exact times and private site details out.

CHECK THE SHARED EXPECTATIONS

Tick discussions completed, not technical approvals. A reference is not permission to enter or operate property systems.

- [ ] Priority views have neutral labels
- [ ] Aesthetic references are separate from capture instructions
- [ ] Readiness questions have a responding role
- [ ] Actual capture and edited alternatives are distinct
- [ ] The photographer communicates the capture decision
- [ ] Conditional deliverables are not assumed unchanged
- [ ] Private access details remain outside this workbook
- [ ] A replacement window requires reconfirmation

Reduced or deferred capture scope / changed deliverable list reference

COMPARE CAPTURE AND FALLBACK SCOPE

Use Provider A/B in each box. Compare the same view priorities and distinguish a new visit from an edited alternative.

Provider A / B / common view labels / proposal references

Actual capture priorities, readiness coordination and decision communication - A / B

Reduced scope, postponed visit, edited alternatives and changed deliverables - A / B

Extra visits, revisions, timing, fee basis, written terms and open questions - A / B
